

Advance Business Company **A.B.C**

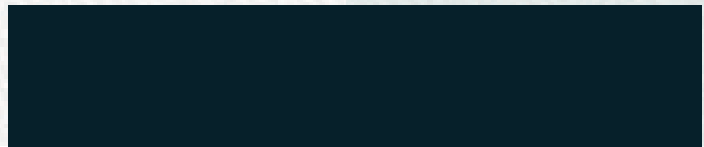

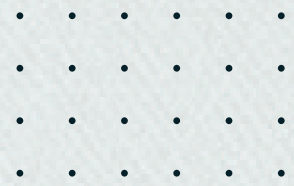

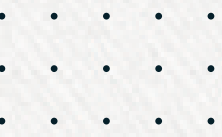

Introduction

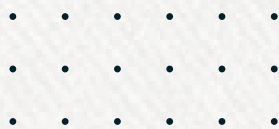

The aspiration for leadership and a passion for excellence drive us to constantly strive to be the best in the scale and quality of our investments. Armed with continuous development of our performance that aligns with our ambitions and diversification of our services to cater to our clients' desires, we aim to strengthen our competitive capabilities in all the activities we engage in. To become one of the leading contracting and construction companies in the Kingdom of Saudi Arabia, it is essential that our partners and clients see us as an integral part of their success. Our company possesses the expertise, skills, and resources to confront the challenges of the contracting business, and as such, we anticipate their needs and fulfill all our commitments towards them.

We embrace our responsibility to the community and have a history of meticulous planning and managing safe work sites, ensuring timely delivery, and achieving excellence in performance. Consequently, Advance Contracting Company maintains its relationship with the surrounding community while safeguarding its projects.

our clients

Word of the CEO:

Advance Contracting Company, a limited liability company, is built on the foundation of honesty in dealings, quality in work, and efficiency in execution. We aspire to earn our clients' satisfaction and trust. We take great pleasure in serving you, executing your projects, and delivering them promptly and with the required quality.

With our team of experienced engineers and technicians in the field of contracting and project execution, we have worked diligently for many years in various regions of the Kingdom. Through the grace of Allah, we have successfully elevated and developed the company to aim for a better future while maintaining credibility with our clients and ensuring quality in our work.

We look forward to continuing this journey with you, delivering excellence every step of the way.

Advance Business Contracting Company in Brief:

In 2009, Advance Business Contracting Company was established as a sole proprietorship under its former name "Beit Al-Bina," operating in the construction of buildings, excavations, and supplies for individuals and the private sector in Riyadh, Jeddah, and all regions of the Kingdom.

In 2012, the organizational structure of the company was developed, and the Operations and Maintenance department was introduced under the Project Management to execute projects in various provinces of the Kingdom.

In 2013, the company expanded its activities by adding the implementation of pipeline extension projects and infrastructure projects to the Project Management, broadening its scope to cover all regions of the Kingdom.

In 2015, the company further expanded its construction activities to include projects in the government sector across various regions of the Kingdom.

In 2021, the company initiated the process of changing its legal structure, transforming into a limited liability company, and thus becoming Advance Contracting Company Limited.
